Dr Hynes said the Accreditation, which is now held by over 450 firms, is needed by the thousands of small and medium businesses which operate to their own standards, but have nothing to measure them by.

"We evaluate a company's background, trustworthiness and performance, and we speak to customers, employees and vendors. We also anonymously approach the company as a customer and report back on the experience. The business goes through at least two interviews and is scored on every part of the process against set metrics", she says.
